Description

The durable die-cast aluminum housing of this lighting fixture features an edgelit design with smooth light output. Its internal strong magnets facilitate easy installation on a metal plate, while the corrosion and heat-resistant powder-coated finish ensures long-lasting durability. Operating at 24VDC with a power consumption of 4W, it is suitable for residential applications. Additionally, it is available in a range of color temperatures from 2700K to 5000K, and its precise optics maximize efficiency, providing up to 60 lumens per watt.
