Description

The durable extruded aluminum housing of this lighting fixture ensures excellent heat dissipation, while the full-length polycarbonate lens delivers smooth lighting. Its corrosion and heat-resistant powder-coated finish adds to its longevity. With a built-in driver, no transformer or adapter is required for installation. The CCT slider switch provides control over five color temperatures, ranging from 2700K to 5000K. Additionally, the fixture offers smooth dimming capabilities, allowing adjustment from 100% to 10% brightness.
