Description

Constructed with a durable aluminum housing that facilitates optimal heat dissipation, this lighting fixture boasts both corrosion and heat resistance through its powder-coated or satin nickel finish. With a versatile input range of 120V-277V and compatibility with 120V Triac dimming, it offers flexibility in various settings. Featuring color temperature options ranging from 2700K to 5000K, available in single CCT or multiple CCT configurations, it ensures customizable illumination. Engineered with precise optics for heightened efficiency, achieving up to 70lm/W, and dimmable down to 5% with compatibility with Triac and ELV dimmers, it allows for tailored brightness control. Certified for damp locations by cETLus and FCC T24 listed, it assures safety and compliance. Backed by a 5-year limited warranty, this lighting solution guarantees both performance and longevity.
